

# RNA

A PUBLICATION OF THE RNA SOCIETY

VOL. 24, NO. 11

NOVEMBER 2018

## CONTENTS

### Divergent Views

- m<sup>1</sup>A within cytoplasmic mRNAs at single nucleotide resolution: a reconciled transcriptome-wide map 1427  
*Schrage Schwartz*

- Perspectives on topology of the human m<sup>1</sup>A methylome at single nucleotide resolution 1437  
*Xushen Xiong, Xiaoyu Li, Kun Wang, and Chengqi Yi*

### Bioinformatics

- Rat BodyMap transcriptomes reveal unique circular RNA features across tissue types and developmental stages 1443<sup>OA</sup>  
*Tong Zhou, Xueying Xie, Musheng Li, Junchao Shi, Jin J. Zhou, Kenneth S. Knox, Ting Wang, Qi Chen, and Wanjun Gu*

- Protein–RNA interactions: structural characteristics and hotspot amino acids 1457<sup>OA</sup>  
*Dennis M. Krüger, Saskia Neubacher, and Tom N. Grossmann*

### Articles

- Competing RNA pairings in complex alternative splicing of a 3' variable region 1466  
*Huawei Pan, Yang Shi, Shuo Chen, Yun Yang, Yuan Yue, Leilei Zhan, Lanzhi Dai, Haiyang Dong, Weiling Hong, Feng Shi, and Yongfeng Jin*

- Dynamic temperature-sensitive A-to-I RNA editing in the brain of a heterothermic mammal during hibernation 1481  
*Kent A. Riemondy, Austin E. Gillen, Emily A. White, Lori K. Bogren, Jay R. Hesselberth, and Sandra L. Martin*

- Poly(A) polymerase is required for RyhB sRNA stability and function in *Escherichia coli* 1496<sup>OA</sup>  
*Dhriti Sinha, Lisa M. Matz, Todd A. Cameron, and Nicholas R. De Lay*

- Reconstitution of 30S ribosomal subunits in vitro using ribosome biogenesis factors 1512  
*Daichi Tamaru, Kazuaki Amikura, Yoshihiro Shimizu, Knud H. Nierhaus, and Takuya Ueda*

(continued)

---

*Cover Illustration: Crystal structure of a guanidine-I riboswitch from *S. acidophilus* (Protein Data Bank code: 5t83; Reiss CW, Xiong Y, Strobel SA. 2017. Structural basis for ligand binding to the guanidine-I riboswitch. Structure 25: 195–202). Image details show RNA—ribbon representation, gray; guanidine—spacefilling representation, red; metal ions not shown. The image was generated with the Jena3D Viewer (jena3d.leibniz-fli.de). Cover image provided by the Jena Library of Biological Macromolecules—JenaLib (jenalib.leibniz-fli.de).*
