

Non-coding RNA and Epitranscriptomic Solutions

Get Your Free eBook

| **Circular RNA Arrays**

Accurately profile circular RNAs by highly specific circular junction probe design

| **LncRNA Arrays**

Overcome the limitations of RNA-seq for lncRNAs often at low abundance

| **Small RNA Arrays**

Accurately profile miRNA, pre-miRNA, tRNA, tsRNA, and snoRNA simultaneously

| **Epitranscriptomic Arrays**

Quantify the percentage of m6A modifications at the transcript specific level

| **m6A Single Nucleotide Arrays**

Locate and quantify the exact m6A site at single nucleotide resolution

Functionality,
reimagined.

The New Vortex Mixer

- Mix and vortex in one compact device
- Precisely set speed and duration controls
- Glove compatible touchscreen
- Quickly vortex tubes with just one touch

The Vortex Mixer is ideally suited for assay protocols that require gentle mixing, all the way up to resuspensions that require vigorous vortexing. Find out more at usascientific.com/vortex_mixer.

DISCOVERIES AWAIT

“Any breakthrough relies on long hours, hard work, and dedication. That inspires us to provide the highest quality reagents and products to help advance life science research and be a catalyst for the next great discovery.”

PAUL LOOMIS, PRESIDENT

Effective Solutions for Your Life Science Laboratory Needs

For life science researchers who require the highest quality proteins, antibodies, and immunoassay kits, Cell Sciences is a worldwide provider of a range of products for research in human models, non-human primates, small and large animals. Our professionals offer personalized, one-on-one consultation to define solutions that meet your need for research and development reagents, rapid delivery, and responsive technical support.

CELL SCIENCES PRODUCTS

- Native and recombinant proteins
- Chemokines and cytokines
- Kinases
- Phosphatases
- Monoclonal and polyclonal antibodies
- ELISA and ELISPOT kits
- Matched antibody pairs for ELISA
- Tissue lysates
- Biological fluids

The Power to Question

DriverMap™ Targeted RNA-Seq Expression Profiling Solution

**Profile all 19,000 human protein-coding genes
in a single tube simply and accurately.**

- Globin depletion or mRNA enrichment steps not required
- Human-specific profiling without interference from non-human background cells
- Sensitive differential gene expression analysis from as little as 10 pg total RNA
- Ideal for biomarker discovery applications

Learn how we can power your research at cellecta.com

Who we are

Cellecta Inc., a trusted provider of genomic products and services, has successfully collaborated with the world's leading pharma, biotech, government, and academic institutions to drive drug target and biomarker discovery since 2006. Our recognized expertise in viral vector production, functional screening, cell engineering and multiplex qRT-PCR has given rise to a portfolio of offerings useful for loss-of-function and gain-of-function phenotypic screening, cell barcoding, cell engineering, targeted RNA-Seq expression, adaptive immune receptor profiling, and much more.

We can power your discovery.

End-to-end Solution for Your RNA-Seq

Lexogen's library preps powered by
complimentary data analysis on Kangoroo.

Kangoroo: Analyze your RNA-Seq data in just a few clicks!

Lexogen's RNA-Seq library prep kits come with a **voucher code** for complimentary data analysis on Kangoroo, our interactive web-based platform for RNA-Seq data analysis. Enjoy our user-friendly **complete workflow for RNA-Seq** experiments. Get online and analyze your RNA-Seq data conveniently and quickly on Kangoroo!

Kangoroo - data analysis that you enjoy

- ✓ **User-friendly** - An intuitive data analysis experience.
No bioinformatics or coding skills needed.
- ✓ **Fast and convenient** - Get your data analyzed in just a few clicks within hours - not days or months.
- ✓ **Interactive** - Drill down into your data with interactive visualizations and investigate your data like an expert.
- ✓ **Accessible anytime, anywhere** - Kangoroo is a cloud-based web application. Just go online and start analyzing.
- ✓ **Proprietary data analysis pipelines** - Data analyses pipelines developed specifically for Lexogen products and maintained by our bioinformatics team.
- ✓ **Secure and reliable** - Your data is safe with us.
We operate under GDPR and follow ISO27001 principles.

Data analysis on Kangoroo is included in our top sellers:

3' mRNA-Seq

- QuantSeq FWD
- QuantSeq FWD UMIs
- QuantSeq REV
- QuantSeq FFPE

Single-Cell 3' mRNA-Seq

- LUTHOR HD

Whole Transcriptome Analysis

- CORALL
- CORALL FFPE

Each analysis pipeline includes Differential Gene Expression analysis with DESeq2.

Bioinformatics NGS Services available!

Leave the analysis to the RNA experts. Discover our extensive offering of standard bioinformatics analysis services as well as fully customized solutions specifically tailored to your project.
