

Supplemental Table 2. Statistical significance of psoralen crosslinking reactivity comparisons

Psoralen Crosslinking Efficiency Significance				
	SR U	SR D	TIA U	TIA D
N	0.078	0.088	0.289	0.040
SR U		0.294	0.012	0.570
SR D			0.087	0.011
TIA U				0.039

Psoralen crosslinking efficiency significance shows P-values obtained by performing two-tailed t-tests in a pair wise manner for psoralen crosslinking experiments.
