PABPC1 SG immunopurification during arsenite treatment

Figure S7

Figure S8

G3BP immunopurification during sorbitol treatment

Figure S9

PABPC1 immunopurification during sorbitol treatment (wild type U-2 OS cells)

Figure S10

PABPC1 immunopurification during sorbitol treatment ($\Delta\Delta G3BP1/2$ cells)

Figure S11

Figure S12

G3BP tethering increases RNA association with stress granules

Other RBPs can compensate for the lack of G3BP
