

A16S category *P. furiosus*

Direct cDNA 
 PCR-cDNA 

**B**23S category *P. furiosus*

Direct cDNA 
 PCR-cDNA 

Fig. S13 | Relative and absolute quantification of rRNA intermediates in *P. furiosus*.

A, The total number of reads per 16S or **B**, 23S category is visualised by a color-coded bar (direct cDNA: grey, PCR-cDNA: blue). Additionally, the relative percentage of each 16S and 23S category is shown in brackets (Compare Figure 4E,F).
