Supplemental Figure 2 | Generation of the *Tasor*^{-/-} alleles in mESCs.

A Schematic representation of the TASOR protein and the *Tasor* locus (ENSMUSG00000040651) and exon 12 with sgRNA recognition site indicated. **B** Alleles 1 and 2 of clone 10 with a 1 bp insertion and 11 bp deletion respectively and sequencing trace. **C** Alleles 1 and 2 of clone 20 with a homozygous 11 bp deletion and sequencing trace. **D** Western Blot of wild type, *Tasor*^{+/+} and *Tasor*^{-/-} mESCs stained for TASOR, LINE1 ORF1p and TUBULIN. An unspecific band recognised by the anti-TASOR antibody as determined by the presence of the band in *Tasor*^{-/-} mESCs is indicated.
