

Supplemental Figure 3 Schöpp *et al.*

Supplemental Figure 3 | FACS gating strategy to select GFP⁺ mESC population.

A-D Representative example of gating strategy for FACS sorting of mESC after nucleofection with PB-CAG-iresGFP-GOI constructs. **A, B** Gating strategy for first sort showing **A** GFP⁻ control used to set up and **B** GFP⁺ sort. **C, D** Gating strategy for second sort showing **C** GFP⁻ control used to set up and **D** GFP⁺ sort.
