

Supplemental_Fig_S1. Expression of m⁶A writers, erasers and readers in murine node cells.

(A) UMAP plot showing the expression of the m⁶A methylases in *Foxj1*⁺ cells. **(B)** UMAP plot showing the expression of the m⁶A eraser FTO from in *Foxj1*⁺ cells. **(C)** UMAP plot showing the expression of the m⁶A readers from the IGF2BP family in *Foxj1*⁺ cells. **(D)** UMAP plot showing the expression of the m⁶A readers from the YTHDF family in *Foxj1*⁺ cells. The square box depicts the node cells marked by the coexpression of *Foxj1* and *Dand5*.
